Singapore At War May 22 2021 This volume brings together for the first time three of Romen Bose's major historical works – Secrets of the Battlebox, The End of the War, and Kranji – in a panoramic account of Singapore's experience in WWII. Sealed off and forgotten until the late 1990s, the Battlebox beneath Fort Canning served as the British Command HQ during the war. What actually

happened in this underground nerve centre of the Malayan Campaign? Drawing on top-secret documents only recently opened to research, the author investigates the workings of the Battlebox and the fascinating role it played. Having lost their “impregnable fortress” of Singapore, the British were diverted to the European theatre of war. How then, when the Japanese surrendered, did they prepare to return to their erstwhile colonies? This book goes behind the scenes to investigate the circumstances, events, and unforgettable cast of characters that led up to liberation. Finally, the book considers those who fought and died in the war, and their ways in which they have been remembered in post-war Singapore, with Kranji cemetery and memorial as the centrepiece of the efforts. Singapore At War contains new findings which have come to light since the publication of the individual books, giving an unprecedented breadth and depth of perspective to this historical account.

New York Magazine Nov 03 2019 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Emergency and Trauma Care for Nurses and Paramedics Mar 08 2020 Emergency and Trauma Care is written for Australian emergency care providers including paramedics, emergency nurses, pre-hospital care providers, nurse practitioners, general practice nurses and allied health practitioners including occupational therapists and physiotherapists who are caring for trauma patients. This book follows the patient journey from pre-hospital to definitive

care. Using a body systems approach, each chapter provides comprehensive coverage of all aspects of adult and paediatric emergencies. Implications for clinical practice is supported by chapters of professional practice, clinical skills, research, evidence-based practice, and legal, ethical and cultural issues. Clinical assessment, physiology, management and rationale for intervention of common and not so common emergency presentations are provided, with each chapter providing clear and relevant examples for both Paramedics and Nurses. Emergency and Trauma Care brings together a team of highly respected clinical practitioners and academics to deliver the most up-to-date text dealing with the practical procedures and evidence experienced by emergency and trauma care providers every day. Chapter 2 Pre-hospital care overview in Australia and NZ Chapter 10 Scene assessment, management and rescue Chapter 11 Pre-Hospital Clinical Reasoning, Triage and Communication Pre-hospital and emergency nursing considerations included in all relevant chapters Chapter 5 Cultural Considerations in Emergency Care addresses cultural diversity, beliefs and values and focuses on Aboriginal and Torres Strait Islander health and Maori health Chapter 19 Resuscitation includes advanced life support, airway management and incorporates the 2010 Australian Resuscitation Council guidelines Chapter 37 People with disabilities provides assessment, examination and communication strategies for working with clients with intellectual and physical disabilities Section 5 focuses on examination and communication strategies for working with unique population groups, including the elderly, disabled, obstetric and paediatric patients Section 6 details major trauma assessment and management, blast injury, and trauma to specific body regions Essentials outline the main points addressed in each chapter Practice tips assist with communication skills, procedures and assessment Case studies supported by questions throughout Summaries and Key points, review questions, web links and references provide for

consolidation and further research. Evolve resources include Power point slides, 30 additional Case studies, image bank, web links

The Magic Mountains Jan 18 2021 Perched among peaks that loom over heat-shimmering plains, hill stations remain among the most curious monuments to the British colonial presence in India. In this

engaging and meticulously researched study, Dane Kennedy explores the development and history of the hill stations of the raj. He shows that these cloud-enshrouded havens were sites of both refuge and surveillance for British expatriates: sanctuaries from the harsh climate as well as an alien culture; artificial environments where colonial rulers could nurture, educate, and reproduce themselves; commanding heights from which orders could be issued with an Olympian authority. Kennedy charts the symbolic and sociopolitical functions of the hill stations over the course of the nineteenth and early twentieth centuries, arguing that these highland communities became much more significant to the British colonial government than mere places for rest and play. Particularly after the revolt of 1857, they became headquarters for colonial political and military authorities. In addition, the hill stations provided employment to countless Indians who worked as porters, merchants, government clerks, domestics, and carpenters. The isolation of British authorities at the hill stations reflected the paradoxical character of the British raj itself, Kennedy argues. While attempting to control its subjects, it remained aloof from Indian society. Ironically, as more Indians were drawn to these mountain areas for work, and later for vacation, the carefully guarded boundaries between the British and their subjects eroded. Kennedy argues that after the turn of the century, the hill stations were increasingly incorporated into the landscape of Indian social and cultural life. Understanding Sales, Leases, and Licenses in a Global

Perspective Feb 05 2020 "This book analyzes the full range of complex legal issues that arise from domestic and international sales, leases and licenses. The author outlines preventive law tactics and planning strategies for all important aspects of domestic and cross-border sales, leases and licenses. The concepts of international contract law are illustrated through the activities of a hypothetical import/export company. The use of the hypothetical teaches practical as well as doctrinal principles of domestic and international contract law. This book uses practical examples and explanations to compare and contrast UCC Article 2 with CISG but also places licensing and leases in a global context. The book is divided into three parts so that individual instructors may select particular subjects which they wish to cover, in the order of their choosing. Each chapter provides helpful hints, practice points and practice problems in an accessible format. This comparative commercial law book is the first to provide extensive coverage of procedural, cultural and localization issues in cross-border commerce. The book is appropriate for a course in international contract law, sales and

leases, or comparative commercial law."

Eternal Mayhem Aug 01 2019 In his book *Poetics*, the Greek philosopher Aristotle, asserted suspense is the fulcrum of all thrillers, with a fusion of trepidation, thrill, expectancy, anxiety, collocated with a feel of pandering tensivity, captivation, fright, fervour. The readers seize with teeth the plot, as it converges to an aleatory, cryptic and stirring climax, leaving them to ruminate. Typically, a baddie-driven one, balked by red herrings, twists, to a bewitching cliff-hanger. Pigeon-holed, the author destroys hope, elicits curiosity and springs surprise, out of the blue. This is the form of the customary mystery, psychologic, political or romantic sub-genres. Gone are the days of ancient epics, Epic of Gilgamesh, Homer's *Odyssey*, Mahabharata. With evolving era, the art of story-telling has undergone radical mutation. Revering them, my attempt was to carve a new scientific sub-genre relevant to this era. The prevalent construct of private detective is *trompe-l'oeil*. My debut to the ambit was with a novel perception, flouting the abstruse idea with a realistic one. Among the legion deaths, deputed buffs could carry the probe. Many quotidian folks could astutely scrutinise the conundrum, until one hits the final bonanza. With this scalage, it capsized the age-old detective myths initiated by Edgar Ala Poe, to a realistic podium. Though probe was by apposite folks, solution

came from the victor. In my first mystery novel, CHAKRA (Bengali 2010) later as FULCRUM (English 2013), amongst heretical ways of several murders, the booklover is in pursuit of the killer-boffo duo. Later, in PURSUIT (2013), besides original homicidal methods, I ciphered a subtly furtive profound insight into extropy of global dynamics. I fused the elided outlook of tralatitious thrillers with a philosophy for humanity. The traditional 'protagonist' waffled between effector and the seer. Scientific thrillers involve a sixth sense into the core of science, history, evolution with a far-flung eagle view of progress. ETERNAL MAYHEM is one of such kind spotless adrenaline raiser, a touch chalk and cheese grand narrative with numerous puzzling scientific murders occurring worldwide. This complex cliff-hanger keeps the reader's adrenaline spurting from the onset as scientific murders take place in exotic global locations. Beautiful lassies, intelligentsia, global scientists are trapped in this white-knuckle masterpiece with all the twirl and twists that will keep the readers rapt. This volume is more than a murder mystery, to transport you from your comfy lounge to a steaming isle, be it Bali, Fiji, Hawaii, Maldives, Bora Bora, Punta Cana or exotic nooks of Jamaica and Puerto Rico. This gripping craft keeps you on your feet, as the global scientific world of genetics gets swathed in the whodunit. Amid the scientific essence of genetic cloning research, it's a scarper from the familiar concepts, to the roots of civilisation with its resultant diversities. It reveals shocking truths, so far clandestine. The apogee seals in a startling eye-opening truth of humanity, offering a thought-provoking riveting thriller.
