[The Pleasures of Pi, E and Other Interesting Numbers](#) Aug 03 2022 This is a mathematics book written specifically for the enjoyment of non-mathematicians and those who "hated math in school." The book is organized into two sections: (I) Beauty for the Eye (shallow water for the non-swimmer); and (II) A Feast for the Mind (slowly getting deeper for the more adventurous). The author covers beautiful infinite series beginning with those that a young child can understand to one that even Isaac Newton, Gottfried Leibniz and the famous Bernoulli brothers could not sum.

[The Interesting Narrative of the Life of Olaudah Equiano](#) Feb 14 2021 A first-person narrative of Olaudah Equiano's journey from his native Africa to the New World, that follows his capture, introduction to Christianity and eventual release. His story is an eye-opening depiction of personal resilience in the face of structural oppression. Olaudah Equiano's origins are rooted in West Africa's Eboe district, which is modern-day Nigeria. He details the shocking events that led up to his kidnapping and subsequent trade into slavery. His journey started at 11 years old, forcing him to come of age in a society that abuses him at every turn. During his plight, he attempts to find new ways to survive, educating himself and eventually formulating a plan to obtain his freedom. The Interesting Narrative of the Life of Olaudah Equiano, the author illustrates the harsh realities of slavery. Upon its release, the book was well-received and translated into multiple languages including German and Dutch. It set the precedent for many first-person narratives that would highlight their own unfathomable experiences. With a eye-catching new cover, and professionally typeset manuscript, this edition of The Interesting Narrative of the Life of Olaudah Equiano is both modern and readable.

[Netscape & HTML Explorer](#) Mar 06 2020 Here is everything readers need to get the most out of Netscape and the Web and create their own Web pages. Netscape & HTML Explorer provides a complete HTML guide that features Netscape HTML extensions. The CD contains all the software Netscape users need to surf the Internet through SLIP, CSLIP, or PPP--plus over 50MB of images, audio clips, and video clips to create a Web page.

[The Interesting Narrative and Other Writings](#) Nov 25 2021 Completely revised and edited with an introduction and notes by Vincent Carretta An exciting and often terrifying adventure story, as well as an important precursor to such famous nineteenth-century slave narratives as Frederick Douglass's autobiographies, Olaudah Equiano's The Interesting Narrative recounts his kidnapping in Africa at the age of ten, his service as the slave of an officer in the British Navy, his ten years of labor on slave ships until he was able to purchase his freedom in 1766, and his life afterward as a leading and respected figure in the antislavery movement in England. A spirited autobiography, a tale of spiritual quest and fulfillment, and a sophisticated treatise on religion, politics, and economics, The Interesting Narrative is a work of enduring literary and historical value. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than

1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Opinion News Jun 28 2019

Modelling for Field Biologists and Other Interesting People 2021 Students of evolutionary and behavioural ecology are often unfamiliar with mathematical techniques, though much of biology relies on mathematics. Evolutionary ideas are often complex, meaning that the logic of hypotheses proposed should not only be tested empirically but also mathematically. There are numerous different modelling tools used by ecologists, ranging from population genetic 'bookkeeping', to game theory and individual-based computer simulations. Due to the many different modelling options available, it is often difficult to know where to start. Hanna Kokko has designed this 2007 book to help with these decisions. Each method described is illustrated with one or two biologically interesting examples that have been chosen to help overcome fears of many biologists when faced with mathematical work, whilst also providing the programming code (Matlab) for each problem. Aimed primarily at students of evolutionary and behavioural ecology, this book will be of interest to any biologist interested in mathematical modelling.

Country Recipes and Other Interesting Stuff Oct 05 2022 When the Lord made pork chops, he said that they would be, bar none, Bob Holt's most favorite meat forever. Being brought up in the Presbyterian Church, and instilled with a belief in "predestination," I believe it was fore-ordained that pork chops would be it for me. From beginning, back in the years of World War II, pork was a main staple my first year of life on the family farm. You're right, I don't remember it, but it must have been imprinted on my hard drive. After Momma introduced me to pork fat (hog lard), Justin Wilson brought wine into my life, and I've been on a roll ever since.

Career Opportunities in Art Museums, Zoos, and Other Interesting Places Oct 31 2022

Of Cigarettes, High Heels, and Other Interesting Things Sep 04 2022 This book deals with one of the most interesting aspects of human life—the search for meaning. It discusses how the science of semiotics is equipped to provide insight on what meaning is and how we produce it. Why is it that certain people routinely put their survival at risk by smoking? Why is it that some women make locomotion difficult for themselves by donning high-heel footwear? Are there unconscious forces at work behind such strange behaviors? This book will attempt to answer such questions by claiming that these behaviors are meaningful in culture-specific ways. The discipline that studies such behaviors and their relation to meanings is called semiotics. Semiotics probes the human condition in its own peculiar way, by unraveling the meanings of signs, which motivate not only the wearing of high heel shoes, but also the construction of words and art forms. Now in its third edition, this landmark introduction to semiotics has been updated with a wealth of new content, focusing on the many developments in digital culture since the previous edition. With the addition of topics such as memes, Selfies, social media profiles, and even Mafia discourse, the new edition comprehensively covers new trends in culture while streamlining treatments of basic semiotics contents.

Berks, Bucks, and Oxon Archaeological Journals Sep 11 2020

Goobledygook and Other Interesting Things Nov 06 2022 Raif was tough. He was the toughest guy on the block and the undisputed leader of the Sixth Street Kerugma Gang. He had a rough upbringing, and well, home was little more than a place to crash for a while before going back into the streets to commit more mayhem. He was well-known to the cops having stolen several cars and newly branching out to become a sidewalk pharmacist. After he was chased by the police, he finds himself trapped in a blind alley. In a panic, he challenges God to save him. Much to his confusion, his challenge is answered. This book is filled with many other stories that may answer some of your challenges and perhaps surprise you as you read!
