A-7 Corsair Pilot's Flight Operating Manual Jul 20 2021 ought;s A-7 Corsair II served

the U.S. Navy for over over two decades, and flew with distinction during the Vietnam conflict. The subsonic A-7 was based on Chance Vought's supersonic F-8 Crusader. It boasted a heads-up display, an inertial navigation system, and other innovations. The plane entered service in 1966, and served in Vietnam in late 1967. Its performance was impressive. The USS Ranger's VA-147 flew over 1,400 sorties with the loss of only one aircraft. The Air Force purchased an advanced version, the A-7D, equipped with a more powerful engine. The plane later flew missions over Lebanon, Libya, Grenada, Panama, and Iraq. The last planes in U.S inventory were retired in 1991. Originally printed by the U.S. Navy and Vought, this handbook for the A-7 provides a fascinating glimpse inside the cockpit of this famous aircraft. Originally classified "restricted", the manual was recently declassified and is here reprinted in book form.

Rover SD1 Jan 26 2022 Rover's big hatchback saloon of the 1970s and 1980s had all the elements of a superb motor car. It was the work of long-standing Rover engineers, with substantial input from their colleagues at Triumph. The SD1's top models even shared their V8 engines with earlier and much-loved classics from Rover. It was stunningly attractive, cleverly derived from Italian supercar styling and still extraordinarily practical thanks to its large hatchback configuration. In this new book, Rover historian James Taylor tells the full story of the SD1, warts and all, from initial concept to final production model. The oft-criticized early models and the more successful later variants are discussed as well as the exclusive Vitesse and Vanden Plas models and overseas and police variants. Finally, for those inspired enough to seek one out today, there is guidance on purchase and ownership. Includes full production histories and comprehensive specification details and is fully illustrated with 200 colour and 70 black & white photographs.
